SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Coastal Region

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on Hwy 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Pfeiffer Big Sur State Park reopened to the public on 07/01/17.
- Julia Pfeiffer Burns State Park, Andrew Molera State Park, and Highway 1 at Pfeiffer Canyon Bridge remain closed.
- Effective 07/01/17, there is a shuttle available until the Pfeiffer Canyon Bridge reopens.

Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- Remains fully closed in both directions at Mud Creek due to continued slide activity. Delivery vehicles and local residents will need to use Nacimiento-Fergusson to exit south or to clear the access times at Paul's Slide. Local residents and delivery vehicles only; the only access to the public is accessing on Highway 1, using Nacimiento-Fergusson, will be to Gorda (PM 10) to the south, and to Limekiln State Park (PM 20.76) to the north.
- Estimated opening date is 06/01/18.

WEATHER OF CONCERN

Weather of Concern

- Hotter weather is expected to return to the northern Sacramento Valley this weekend with highs of 105-110 and lows above 70 in the forecast.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

***** Very hot this weekend interior valleys *****

***** Chance of thunderstorms northern and eastern areas Sunday afternoon through Monday evening with potential for significant fires developing *****

The trough that's been over the North Ops region the past few days is weakening and warmer conditions under higher pressure will be in place for a few days. Afternoon highs will be 103-110 for the warmest inland valley areas Saturday and Sunday. The marine layer will continue to keep areas of overnight and morning low clouds in place.

A change in weather pattern will start later Saturday as a weak low pressure system moves east toward the Northern California coast. No thunderstorms are expected over the North Ops region through Saturday but that will change later Sunday as the low arrives just off the coast. The timing, moisture content and track of the low Sunday and Monday remain uncertain, but it does appear the low will gradually pick up some monsoon moisture from the south. For now, however, it appears there will be isolated thunderstorm activity develop Sunday afternoon, most likely over the northern and eastern mountains. This activity is expected to continue overnight before a lull in the action during the day Monday. Later Monday afternoon through Tuesday, more thunderstorms are expected, including overnight Monday. Thunderstorms may occur over more areas in the north Monday night, but by then the storms should be relatively moist and pose less potential for significant fires. Dry SW flow will return the latter half of next week.

SOUTHERN CALIFORNIA

*****Warm and very dry through Saturday*****

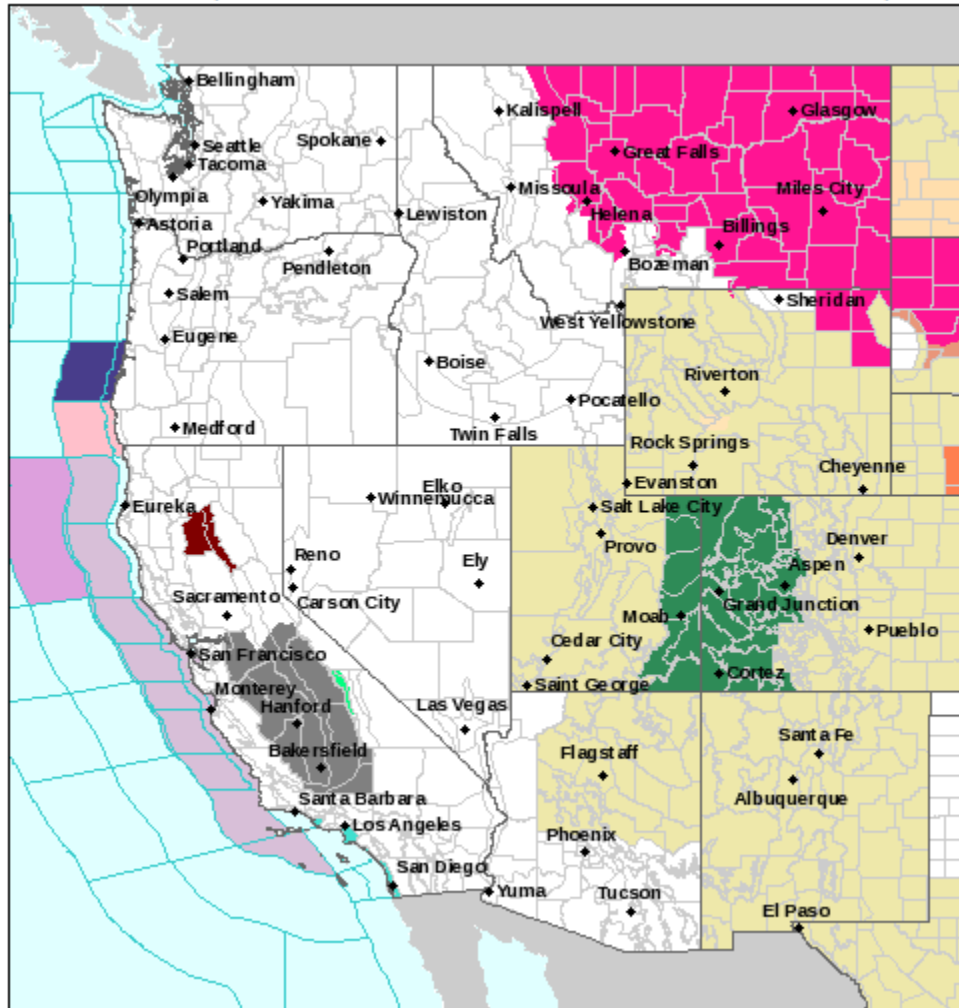

*****Gusty north winds across Santa Barbara County and the Grapevine tonight*****

Strengthening high pressure over Nevada will bring a few degrees of warming to the region both today and Saturday. Maximum temperatures will be in the upper 70s and 80s across the mountains and upper 80s and 90s in the valleys today. Minimum humidity will be mainly in the single digits and teens away from the coastal areas through Saturday. North winds of 10 to 20 mph with gusts to 35 mph will surface across much of Santa Barbara County and the Grapevine tonight. A weak area of low pressure will form off the Northern California Coast Sunday and remain off the coast through the middle of next week bringing a cooling trend and an increase in humidity to the region. This low will bring up moisture from the southeast and south causing isolated to scattered showers and thunderstorms Sunday afternoon through the middle of next week. Most of the shower and thunderstorm activity will occur over the Sierra and over the mountains and deserts of Southern California east of I-15.

- **2017-LAW-37446 7/20/17, 1547 hrs.,** The IERCC reported an inReach device activation at coordinates: 37° 06' 21.5" N, 118° 33' 12.1" W, in Fresno County. The R/O of the device stated she was approached by a member of a hiking party who stated a 52 yr old male, who was with a large group, had suffered a possible intestinal rupture on the Bishop Pass Trail, approx. 1 km east of the John Muir Trail. LDO contacted Fresno SO who was able to determine the call was within the Sequoia Kings Canyon Natl Park (SKC NP) and briefed them on the call. **Update: 2239 hrs.,** IERCC advised SKC NP located the injured male approx. 2000 hrs., and airlifted him to an emergency landing zone where he was then transported by ground ambulance to Kaweah Hospital. **Mission Closed.**
- **2017-LAW-37407, 07/19/17 at 1630 hours,** Inyo County Sheriff's Office is requesting SAR mutual aid to assist in locating a missing 61 year old female hiker who hasn't been seen since separating from her hiking party mid day Wednesday in the area of Baker Lake/Big Pine Canyon. A handwritten note dated 07/19/17 at 1200 hours, believed to be from the MP, was left at Coyote Flat so searchers are concentrating in that area with the help of CHP out of Victorville. Inyo is requesting Type I ground searchers and ATV's for a Thursday Op Period. Only Kern County/China Lake Team was able to support for Thursday. **Update: 07/20/17 at 0650 hours,** To secure resources for Friday and into the weekend, LDO re-contacted Kern, along with the Mono, San Bernardino and Marin County SAR Teams. A/C Broughton contacted Placer, El Dorado, Riverside and Los Angeles Counties. 1336 hrs, With commitments secured from Marin, Mono and Los Angeles, and coordination continuing with the others, ICSO advised they had a tentative locate on the MP. 1359 hrs., ICSO advised positive ID made on the MP; she is alive and well and being extracted. She was located by a mutual aid helicopter N/E of the Lake where she was last seen. All SAR mutual aid resources cancelled. 1818 hrs., ICSO advised all mutual aid had been debriefed and released. **Mission Closed.**
- **2017-LAW-37349, 07/18/17 at 1110 hours,** The Sacramento County Sheriff's Department (SSD) is requesting SAR mutual aid to assist locating an Asian male adult, presumed drowned, at Brannan Island. The missing person (MP) was camping with his family earlier Tuesday when he left their campsite to fish. His family later located his fishing gear and clothing, but no sign of the MP. The USCG Rio Vista and Solano County SO marine teams are responding to assist. **Update:** Ground searchers were UTL on the MP. Solano SO Dive Team and USCG have rescheduled for Saturday, 07/22/17. **Update: 7/20/17, 1710 hrs.,** SCSO SAR advised the remains of a person matching the description of the MP were recovered by the USCG after receiving a report from a private citizen. Positive identification is pending a coroners inquiry, however SCSO is cancelling the dive mission on Saturday. **Mission Closed**

EMAC and Public Assistance - 2017 Winter Storms

- Cal OES Recovery Division identified the need for Public Assistance subject matter experts to assist with the aftermath of the 2017 Severe Winter Storms. Accordingly, Cal OES requested assistance from other states through the Emergency Management Assistance Compact (EMAC) - the Nation's mutual-aid system. New Jersey and Colorado provided personnel that arrived on Monday, 06/13/17. Both states along with other potential states will be providing support between now and the beginning of September at various Joint Field Offices throughout California. The goal is to assist those impacted counties in identifying disaster related damage and program eligibility.
